

Crème Universelle Noire

Article : 0904019

Description :

Following the worldwide success since 1920 of the CRÈME UNIVERSELLE SAPHIR, many consumers wanted to add a restorative and recolorant function to the already well-known properties of this cream. Our laboratory has worked for many years before developing, in collaboration with great leather manufacturers, the formula we propose today. This formula is unique on the market, it keeps all the properties of the CRÈME UNIVERSELLE, but also allows to repigment and repair the smooth leather flower without any risk of unloading on the clothes. As pleasant to use as the colourless CRÈME UNIVERSELLE, its use is as well recommended for leather goods as smooth leather garments. It possesses great recoloring power and has the ability to repair small surface defects of the fineries. Naturally, like its colourless version, it is used for regular care. In order to offer the best service to consumers, it is necessary to offer systematically the CRÈME UNIVERSELLE NOIRE when it comes to black polishing that will naturally be much better than its colorless version. Indeed, it is always preferable and desirable, as far as possible, to avoid using colorless products when a black version is available, in order to have a refreshing and delightful action of the black colour of the leather.

Care Instructions :

1. Shake the bottle.
2. Spread CRÈME UNIVERSELLE SAPHIR with a cotton cloth, by rubbing leather.
3. Let dry approximately 5 minutes.
4. Polish.

Main ingredients :

The CRÈME UNIVERSELLE Saphir is based on Jojoba oil (extracted from the Jojoba nut which grows mainly in the dry regions of Mexico and south of the United States of America) which provides regenerative and anti-aging action to protect and maintain the flexibility of leather. Thanks to its richness in beeswax (28.9% of wax) and the incorporation of lanoline (grease secreted by sheep), the CRÈME UNIVERSELLE Saphir is known for its nourishing, moisturising, softening and shining properties.

Size and Capacity :

Capacity: PET bottle with label, 150 ml
Jar size: Length 33 x Width 55 x Height 150 mm

Packaging :

Quantity per box: 12
Box dimensions: Length 205 x Width 240 x Height 160 mm
